**Question 22****2 / 2 pts**

**"My husband/wife/child/parent/friend--or other--helped me with the paper. S/he wrote or rewrote part or all of it in order to make it more interesting, more authoritative or 'smarter.' This wasn't plagiarism-I simply got some help."**

**True or false**

☐ True

☒ False

Ans: **FALSE**. Here, plagiarism coincides with academic dishonesty. It is the same as if someone else took a test for you or helped you take a test or did the whole or part of one of your class projects for you. It is plagiarism because you are representing someone else's ideas and efforts as your own. However, light copyediting is not authoring. The key idea here, again, is that your paper should be your argument, your writing, your empirical work and/or conceptual reading of source materials. You must be the author of the work you submit.
